

## **Lose a Dress Size in an Hour and Be Back at Work the Next Day at Final Inches**

### *Final Inches Announces Grand Opening of Los Angeles, CA Location*

Los Angeles, CA ([PRWEB](#)) May 6, 2009 -- Building on the success of its first location in Orange County, CA Final Inches is pleased to announce the grand opening of its new Los Angeles location in Sherman Oaks, CA. Final Inches is the only Medical Body Shaping Center in Southern California that specializes solely in [Laser Liposculpture](#), a minimally-invasive procedure that eliminates those final inches of stubborn fat.

"Many areas of our body are genetically predisposed to store fat, including our waist, stomach, hips, thighs, and under our arms and chin. At Final Inches, we remove this fat, permanently, in about an hour, with our Laser Liposculpture procedure," states Anh Ngo, MD, Board Certified Surgeon and Medical Director of Final Inches. "It's the only procedure we perform. We've developed a true expertise and it shows in our results and in our safety record; Laser Liposculpture is ideal for women and men who struggle to lose those final inches of fat, no matter how much they diet and exercise. At Final Inches, we permanently remove this stubborn fat, reshaping our patients' bodies to create a slimmer appearance."

The physicians at Final Inches use a state-of-the-art, FDA-approved laser to melt the targeted fat cells, which are then permanently removed from your body. The procedure takes about an hour and, unlike traditional liposuction, Final Inches' Laser Liposculpture procedure requires no major surgery. "Our top priority is safety," says Dr. Ngo. "Patients remain awake the entire time and experience minimal bruising and swelling. Most usually return to work the next day."

Immediately after the procedure, patients enjoy a noticeable decrease in fat and inches in the targeted areas. Patients are guaranteed to [lose fat](#), permanently, and most lose a dress size or more.

Almost everyone is a candidate for Final Inches' Laser Liposculpture. The ideal candidate is in good health, within 40 pounds of his or her ideal weight and has one or more areas of stubborn fat that just won't go away despite diet and exercise.

Final Inches boasts an impeccable safety record and extremely high patient satisfaction. 95% of Final Inches' patients willingly recommend the Final Inches' Laser Liposculpture to friends and family.

Specializing solely in Laser Liposculpture, Final Inches opened its first [Medical Body Shaping Center](#) in Costa Mesa, CA in the Fall of 2007. The Center was an immediate success. Their reputation as the experts in this procedure, along with their track record for impressive results and safety, quickly increased demand for their services which led to the opening of their second practice in Los Angeles in Sherman Oaks, CA in Spring 2009. Final Inches performs more Laser Liposculpture procedures than any other Southern California practice.

For more information regarding Final Inches' Laser Liposculpture procedure, please contact Final Inches at 866-96-FINAL (866-963-4625) or visit [www.finalinches.com](http://www.finalinches.com). Final Inches is located in Los Angeles at 15301 Ventura Blvd. Sherman Oaks, CA and in Orange County at 1202 Bristol Street, Costa Mesa, CA.
